

Girth Welders – (AGW Series) –

Automatic Girth Welder are mainly used for construction of storage tanks. Using Sub-Arc welding process, it allows faster welding time and better welding quality.

Our Automatic Girth Welder are manufacture using the highest quality rough material and under the supervision of our high train technicians to ensure its long-lasting life and performance.

Advantages of using our Automatic Girth Welder AGW Series include the following:

- **Faster welding time**
- **Better welding quality**
- **Compatible with jacking equipment**

Girth Welders – (AGW Series) –

AGW Series Specs

Model/Specs	AGW
Welding Plate Width (mm)	1400 - 3200
Min Diameter of Tank (mm)	5000
Travel Welding Speed (mm/min)	300 - 2000
Fast Travel Speed (mm/min)	3000
Machine Weight (kg)	600
Boom Vertical Motor Power (Kw)	1.1
Estimated Size - Length x Width x Height (mm)	1600 x 1200 x (2600 - 4300)

Includes:

- 50 meters of cable (power cable, control cable, welding cable)
- 5 meters of ground cable
- Flux Recovery

Options:

- Welding Equipment
- Double side Automatic Girth Welder
